SUBJECT: Venus Laboratories, Inc.  
Waste Haulage to Land & Lakes, Co.

On September 13, 1982 I telephoned Mike Radcliff of Land and Lakes Company (312-825-5000) to find out whether they had received any waste from Venus Laboratories, Inc. subsequent to May 6, 1981. Mr. Radcliff reportedly checked his files and found that Special Waste Permit # 803188 via Vanderhyden Hauler had expired January 13, 1982. No permit renewal application had been received nor have any wastes been received from Venus subsequent to May 6, 1981.
